

## Jason McDonald

*Untitled* – The Corner Store Gallery

March 15 - 26

Jason McDonald enjoyed a successful career in Sydney as an award-winning graphic designer before returning to the family farm near Mudgee NSW where he grew up surrounded by nature. It was here in 2015, Jason established his luxury accommodation - Permanent Camping Eco Retreat - while also following new directions in his creative pursuits.

Jason began a love of photographing landscapes, birds, insects, flora and fauna and then turning his photography into works of photo media art. In 2018, Jason featured in his first exhibition in Mudgee and since then has appeared in many national group shows. More recently, he was a finalist in the National Capital Art Prize at The Fitters Workshop ACT, Sep–12 Oct 2022 and a finalist in the Fisher’s Ghost Art Award, Contemporary Section, at the Campbelltown Arts Centre Oct–9 Dec 2022.

“The Magpies, The Echidna and The Quail”

Inspired by life on the family farm, Jason has photographed his rescue animals, “there’s often an animal or two being looked after at the house” Jason says, along with vintage kitchenware and flowers from the garden. The artworks have a playful feeling of nostalgic country life.
