

Andrea is a prolific artist who has works in various galleries within Australia and collections worldwide. She creates work that observe the ordinary, but celebrate the beauty within, inviting the viewer to find a different way of seeing.

Throughout a long career of teaching Art in Secondary Schools, Andrea has maintained her own Arts practice from her art studio/gallery in Berwick.

Each day Andrea makes a short, solitary journey to her studio in the garden at Paperworks Gallery. Within this space she creates. Quietly. The smell of coffee mixes with oil paint, the playlist loops in the background and the easels are full of potential. Hours go by. For Andrea, painting is meditative, peaceful, addictive and quiet. "Sunburnt Country" and "Amethyst" are imbued with the stillness of the Australian landscape, evoking both the quiet of the bush and the quiet creation of the works.
